Web Developer Intern @ CodeAlpha

Dec 2025 — March 2026

Developed responsive and interactive web applications using HTML, CSS, and JavaScript.

PROJECTS

zenith

Solo Dev

Zenith Goods is a responsive, single-page application (SPA) designed to showcase modern e-commerce principles, minimalist design, and smooth user interactions using only HTML, Tailwind CSS, and vanilla JavaScript. It simulates a full shopping workflow from product browsing to order placement and tracking.
